Professional Summary

Highly motivated Computer Science graduate with strong knowledge of Python, SQL, FastAPI, Machine Learning, and Web Development. Experienced in building AI-powered applications, REST APIs, and automation tools.

Education

Bachelor of Technology (Computer Science Engineering)

ABC Institute of Technology, Mumbai University (2022–2026)

CGPA: 8.75/10

Technical Skills

Programming: Python, Java, C++, SQL

Web: HTML, CSS, JavaScript, React

Frameworks: FastAPI, Flask

Databases: MySQL, SQLite

AI & Data: Machine Learning, Pandas, NumPy

Tools: Git, Docker, VS Code

Experience

Software Development Intern – XYZ Technologies Pvt. Ltd.

May 2025 – July 2025

- Developed REST APIs using FastAPI.
- Automated Excel reports using Python.
- Improved API response time by 30%.
- Collaborated with a team of five developers.

Projects

AI Resume Parser

Built a resume parsing system extracting candidate information from PDF/DOCX using Python, FastAPI, pdfplumber, and spaCy.

Student Attendance System

Developed a web-based attendance management application using Flask and MySQL.

Certifications

- Oracle AI Foundations
- Google Data Analytics Professional Certificate
- IBM Python for Data Science

Achievements

- Finalist – National Hackathon 2025
- Top 5% in Coding Competition

- Dean's Merit Scholarship

Languages

English, Hindi

Interests

Artificial Intelligence, Open Source, Competitive Programming
